

CERTIFICATE IV IN OCCUPATIONAL HEALTH AND SAFETY (BSB41407)

This qualification reflects the role of individuals who use well-developed skills and a broad knowledge base in a wide variety of contexts. They apply solutions to a defined range of unpredictable problems, and analyse and evaluate information from a variety of sources. They may provide leadership and guidance to others with some limited responsibility for the output of others. This qualification would suit an OHS officer in a full-time dedicated role who works under the supervision of an OHS Coordinator or OHS Manager.

On successful completion of the program you will be issued with a nationally recognised certificate that will confirm your skills and competence in Work Health Safety. This qualification can also lead to a diploma level qualification within the Work Health Safety area.

Delivery Methods

An ATEC Trainer will meet with you to arrange a training program to suit your needs. This can be delivered entirely on the job and will, wherever possible, be directly relevant to the day to day tasks that you practice within your organisation. The trainer will also conduct scheduled visits, provide ongoing support via telephone and/or email, and offer additional mentoring to assist you to achieve a quality learning outcome.

Assessment Methods

May include questioning, demonstrated previous experience, observation in the workplace, tests, written reports, project examinations and other appropriate assessment methods depending on the unit requirements.

Pre-requisites

There are no pre-requisites for individual units of competency that make up this qualification. However, completion of a Certificate III in OHS or similar qualifications, or experience in a Work Health Safety role in the workplace would be beneficial prior to undertaking this qualification.

Course Fees

\$3,000 (includes learning resources)

For this qualification you are required to select 1 Core unit and 11 Elective units.

Course Outline (Example Training Plan*)

Core Unit

BSBOHS408A	Assist with compliance with OHS and other laws	Core
------------	--	------

Elective Core Unit

BSBOHS405B	Contribute to the implementation of emergency procedures	Elective Core
------------	--	---------------

Elective Units

BSBOHS401B	Contribute to the implementation of a systematic approach to managing OHS	Elective
BSBOHS402B	Contribute to the OHS consultation process	Elective
BSBOHS403B	Identify hazards and assess OHS risks	Elective
BSBOHS404B	Contribute to the implementation of strategies to control OHS risk	Elective
BSBPMG510A	Manage projects	Elective
BSBRES401A	Analyse and present research information	Elective
BSBRISK401A	Identify risk and apply risk management processes	Elective

* Please note: The above program is an example only and an ATEC Trainer can negotiate a training program that includes units that are relevant to the job role in your organisation.
